Dear MISD Friend,

The MISD Foundation and Alumni Association Marion Fund grant allowed us to bring in highly sought-after cultural presenters from other countries. Many of the adults and students had a once-in-a-life-time experience to see professional cultural performances by performers from Australia, Ukraine, Czech Republic, Latin and South America and Africa. This was only possible through the grant we received. We are committed to sharing diversity in a positive way in our district and we are appreciative that the Foundation saw the value in this project.
